To Whom It May Concern

Shelly Hamill - Artist

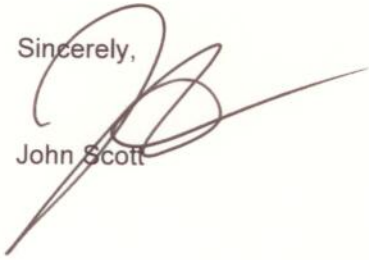

It is with great pleasure that I provide the following reference for Shelly Hamill and her artwork.

I first viewed Shelly's beautiful sculptures at the Tuckers Point Hotel & Spa three years ago while on a business trip to Bermuda. My former company became the management company of Tuckers Point shortly after my visit and we witnessed first-hand how well received Shelly's work was by our guests. The gift shop at Rosewood Tuckers Point has sold numerous pieces of Shelly's work, which has created much appreciated net income for this property. In addition, Shelly's art compliments varying decor in hotel common areas adding to the guest experience while not costing hotel properties financially as with other interior treatments.

In the intervening time, I have become friends with Shelly and her family and can attest to the passion with which Shelly approaches her work. Shelly is dedicated to conceiving and executing beautiful sculptures and conducts her business with professionalism and a unique understanding of the hospitality industry.

I wish Shelly the very best with all of her future endeavors.

Sincerely,

John Scott
